AMATUER RADIO CLUB

Meeting: Wednesday, May 19 at 7:00 pm.....
Coffee-Orange juice-Cookies at BREAK time...

PGE BUILDING-MURRAY AND SCHOLLS FERRY ROAD-BEAVERTON

President: Dick Powers WB7ADM
Vice-Pres: Randy Cobb KA7HJT
Secretary: Linda Cereghino N7CZY
Treasurer: Warren Knight N7BIJ

Trustee: Bob Orr KB7CC
Trustee: Mark Walker W7CLU
Trustee: Roger Steyaert K7RXV
Trustee: Al Berg WB7SIC
Trustee: Bill Whiting WA6VPA

Great to see such a large turnout at the April meeting. It was a warm and sunny evening and it was thought that attendance would be poor but not so. The room looked a little empty but only because additional chairs had been left in the auditorium because of a previous meeting. We had over 100 members enjoying the program and the program was, as promised, humorous! Don Johnson, W7RFV, gave a good one. Some members complained that it was too short. Don, thank you for making our meeting more worthwhile and also for bringing the wife along. It was nice to meet both of you. •Got to get more \$ generated for the Icom 290. If we can get lots of tickets sold at our May and June meetings, we might be able to call out the winning number at the field day site. THAT would sure add some excitement to the weekend! Yeah, we do have a lot going on raffles right now and maybe should tone it down some but a 290? Pretty heavy prize!!!! Let's see how it works out. •Sure hope the 'Emergency/Public Service' committee has something going for us this summer. Lots of members are chomping at the bit to get out and make some public appearances. Hey guys, what's happening?? •Beware of rigged club auctions! We had one last meeting and yours truly got taken for a few \$ by the club Presidente. An auctioneer he ain't but a con man-YES! Actually, it was money well spent as the ceramic ducks were and are worth more than the \$25.00 I paid. Took them to a gift shop the next day and got \$45.00..... Thanks Dave!! •Several members got out to our field day site to make sure that it was still there. Sure enough, nothing has changed. Rock Creek is still full of water, the trees, cookhouse, water well and beautiful scenery has not changed a bit. Our President was super impressed with the site and, being an avid fisherman, staked out a spot for his trailer house right on the creek and next to the best fishing hole. A rather surprisingly selfish move but he will pay for his greed. Now don't tell him this. I checked the tide tables and found that at around 3:00 am on Sunday, he will be up to his speech processor in water. Not only that, the station layout shows that his trailer will be about 20' from the generator with the broken muffler. What a night to remember that will be! Tee hee.... Don't tell!

CONVENTION BANQUET: If you registered for the convention but did not include the banquet dinner and program and have had a change of mind, just send a check for the dinner fee to Seaside along with a notation as to your pre-registration number which is noted on your confirmation card. WE FACE A SELL-OUT CROWD.....

CLUB MOTEL-LAST CHANCE!!!!

We had a cancellation on a room with two queen beds and if you want it, it is on a first come first served basis. There are 3 double sized rooms available which we are not obligated to fill but if any couples in the club would be willing to share one, have at it. The rooms have two bedrooms with a queen size in each. The living room has a queen size bed and a queen size hideabed. The cost per couple would be \$42.50 plus tax. Very spacious quarters for only \$3.50 more than a single with one queen. ANY TAKERS?? Call 1-738-9581 PRONTO.....

RUSTY KEY CONTEST RESULTS submitted by N7CRP

Everyone who worked the contest was a winner. It was fun and new friends were made in the spirit of friendly competition.

Contest Scores were so close that a special Tie-breaker had to be used to declare the winner. It was decided before the contest that in the case of a tie, the station that worked the most O.T.V.A.R.C. officers and committee chairmen would be declared the winner. Al, WB7SIC, won First Prize, and Fran, Cary and Roger, operating KA7KIS took a very close Second. Prizes were unique plaques bearing the Rusty Key logo, and were engraved with the respective name and call.

Dennis, N7CME, won the drawing prize, the new ARRL Operating Manual. All stations that submitted logs were presented with a personalized R.K. Certificate.

If you missed the contest, we will be having another May 20, see rules below.
Final Contest Ranking and Points:

WB7SIC	96
KA7KIS	96
KA7FDT	86
N7CME	80
K6RH	80
WB7TIJ	78
KC7U	78
KQ7I	74
N7CRQ	72
KA7CTP	72
KA7HJT	66
KI7F	64
N7ACO	48
N7CRP	46
KA7GHR	46
WB7ADM	42
N7CMF	40
WA6HZO	38
N7DHK	30
N6RY	30

NO MORE EXCUSES: Why didn't any Novices or Techs (other than myself) join in the last Rusty Key nite?

Feeble excuses and rationalizations aside, Rusty Key nite is designed to help everyone brush up C.W. skills, or get your first on the air experience. If you have never worked C.W. don't miss the opportunity to work your friends next R.K. nite, they will be glad to make your contact, no matter how slow. You will be surprised how EASY and FUN it is.

If you don't have equipment, or just feel the need for moral support, why not join with another ham and go multi-op? The May 20 R.K. rules will favor stations with Novice or Tech. operators.

The Contest Committee will also sponsor an informal discussion during break at the next meeting. This will be oriented to answering your questions and show you what to expect during the contest.

If you need help finding a multi-op station, please call Marty, KA7CTP, or John, N7CRP. If you are really smart you will call one of your friends that scored high during the last contest and work multi-op with them!!

MAY RUSTY KEY CONTEST DETAILS

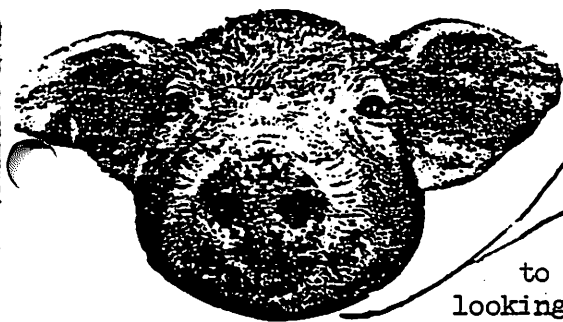

15 METER RUSTY KEY RULES: Thursday, May 20, 7:00pm to 10:00pm, 21.1MHz to 21.2MHz.

*EXCHANGE: Call, Name, License Grade and RST. Signatures will NOT count extra.

*MULTI-OP stations are O.K. one transmitter, and one receiver only. Control Operators of Novice or Tech. Multi-op stations must operate for part of contest.

*SCORE: 3 points for each Novice or Tech. contacted, 2 points all others. NO points for signatures. Novices or Techs. may append their Call with a /N or /T (i.e. N7CRP/T). Contest is not restricted to club members.

*LOGS: Use ARRL or similar type Log, or pick up log and rules sheet at May 19 meeting. Logs are due at June 16 meeting, or Postmarked no later Than June 17, 1982.

HOWDY
COUSIN !

NEW MEMBERS

Ernie Austin	W7AXJ	W
Mike Boyd	N7DKQ	E
Tom Brown	WA7KAW	L
John Haide	WA7CZA	C
Bob Jacobs	WA7VAE	O
Dick Kirk	WB7RAL	M
Edith Litvin	KA7MIF	E

A big OTVARC 'howdy'
to our newcomers. We are
looking forward to getting

acquainted with you and hope that you feel the same.

We have a lot of fun in OTVARC and hope that you will jump right in and participate.

The weatherman goofed again. Went outside the other day and stepped into 6 inches of 'partly cloudy'. Dave, W7LJN, practically lives in his car. He says that safe driving is the best way to assure a long life and to be sure and wear seatbelts. He says that sitting on the buckles keeps him awake.

Convention

This will be the last newsletter information on the convention and the May meeting will be the last club get-together where you can be updated on the latest news. If you read the newsletter, you should have a pretty good idea of what is going on. We have a real winner going and it has been through the efforts of many people who have spent hours and hours of dedicated and donated time. If you have not been so fortunate to have been called on to give some of your time, you are now being given that opportunity! You do not have to give up all else for a five or six month period of time. You do not have to go to countless meetings, lose sleep, live on the phone, type letters or any of that sort of thing. All you have to do is offer a couple of hours of your time to help out on SECURITY. SECURITY requires more 'on duty' time at the convention than any other responsibility except for working the registration booth. We have some members signed up for four or five hours at a time and it should NOT be necessary for anyone, given the size of our club, to give up more than two or three hours. If you are going to the convention, you will be there anyway so why not sign up for a two hour duty. Most of the duties require walking around and you will be doing that anyway. Let's give the other guy a chance to walk the beach with the wife or attend a seminar. The sign-up sheet will be available at the May meeting. Do your part to help, even if it is an hour!! Thank you in advance for your help.

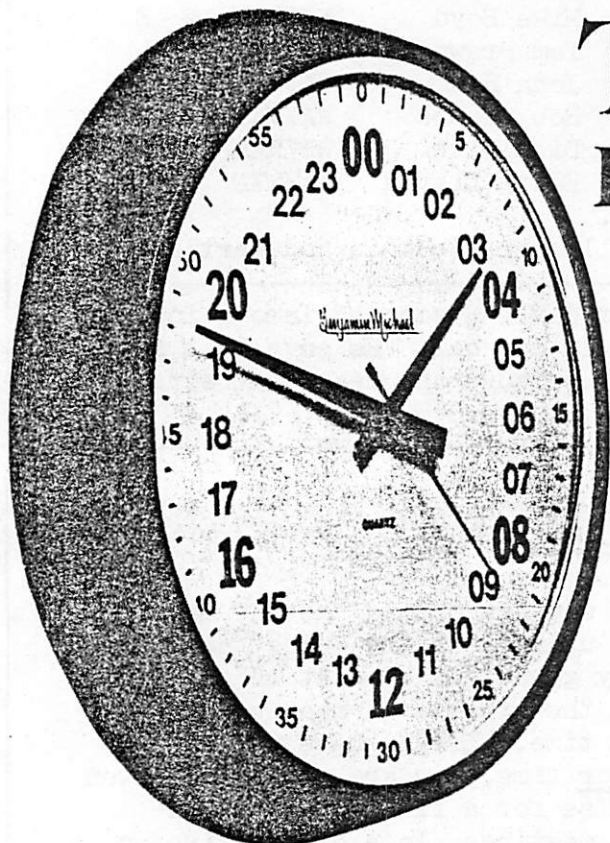

FCC TESTING: If you get a form 610 INTO the FCC office by May 21, you will be one of the lucky ones given the chance to upgrade at the convention. The testing will start around 10:00 am on Saturday and will be held in the Landmark Motor Inn hospitality room. Testing will run on to about 2:00 pm and then the room will be open to club members.

HOSPITALITY ROOM: The room will be open to all club members on Friday, up until about 7:00 pm. After that time, it is open only to committee members, exhibitors, contributors and guests. A badge denoting one of the above will assure entrance. As stated, on Saturday the room will be used for FCC testing and when that is all over, the room will again be open to all members. Come in, put your feet up and enjoy a free snack and cup of coffee. It will be a great gathering place and allow a little R&R for the footsore. After the banquet Saturday night, the room will again be open only to committee members, exhibitors, contributors and guests. There is no other way to handle it. We cannot provide a room nor the amenities to handle a large crowd and it is important that our "heavy" convention contributors have a place to rest, rag chew and get confirmed for NEXT YEAR. Sunday morning, the room will be open to all club members and will remain so until the convention closes. We hope you understand the reasons behind all of this and will abide by it. See you all in Seaside? Sure hope so and be sure to bring the family!!!!

Field Day

JUNE 25-26-27

Off we go again for a fun-filled club outing. You can bring the whole family for this one as we have something going for all attendees. I will try to outline for you, as accurately as possible, the what, when and

where. Minor, small details and last minute needs will be in the June issue.

WHEN: We will start setting up on Friday, June 25 at 10:00 AM. Actual operation will start at 10:00 am on Saturday and will run until 10:00 AM on Sunday. WE NEED LOTS OF HELP ON FRIDAY and you will see why as you read on.

STATIONS: We will have 2 phone stations, one CW station and a complete novice set-up. We have 3 towers and beams to install, a whole bunch of dipoles and 2 shelters. We are hoping just one but will see. There is a lot of work to do and not a lot of time to do it. If you want in on the action, make your plans NOW to have a day off from work! We had nearly 40 people helping last year and as the club is a lot larger now than then, we expect to see a lot of helping hands. Besides, Friday nite is a real kick. A couple of kegs, a bonfire, good company and -- more later.

EQUIPMENT: We need 5 solid state rigs, about a dozen batteries, tons of coax and about 6 battery chargers. A total listing was shown in last months letter but we mention these only because of their importance. A committee listing is at the end of this article so you will know who to call for donations.

KITCHEN: Yes Marie, we have a kitchen! The cookhouse is about big enough to feed 60 people at a time. It has electricity, a refrigerator, wood cook stove and a nearby water well. Rustic but adequate. We have a propane stove being donated and will probably have a Coleman as well.

FOOD: THE CLUB IS SERVING SATURDAY NITE DINNER AND SUNDAY MORNING BREAKFAST. ALL CONDIMENTS IN REGARD TO THE MEALS WILL BE FURNISHED AS WELL AS COFFEE, TEA, PUNCH AND PAPER PLATES AND CUPS. WE WILL HAVE TWO KEGS FOR THOSE WHO TAKE AN OCCASIONAL SIP. You are asked to bring your OWN utensils. We will have some plastic 'silver' just in case. MEAL COST WILL BE \$2.00 PER ADULT AND \$1.00 FOR THE 6 THRU 12 YEAR OLDS. SPAGHETTI DINNER WITH FRENCH BREAD AND SALAD, PANCAKES AND SCRAMBLED EGGS FOR BREAKFAST. Pretty hard to beat-even at your local McDonalds!!

THE SITE: The first thing to be said about the area is that it is on private property and it is a GAME PRESERVE. The owner is very happy with us as we have been good tenants for the past two years. He has three simple requests. ABSOLUTELY NO PETS ARE ALLOWED. If you would have to stay home because of a pet problem, the pet MUST be on a leash if you attend. No barking, roaring, trumpeting or meowing is to be heard! If you come in a motor home, camper or trailer, it had better be soundproof. There will be a lot of people running around in the nite and your neighbor, exhausted from the day's activities, will not appreciate being awakened by a yapping mutt. Ok?? On to the other two requests. As the property is a farm, it has cows and a gate. The owner will appreciate your closing that gate when you pass through. We don't want to conduct a roundup in the middle of all our doings. Don't want any of the 'wild' critters getting out either. Don't worry, no fangs or claws on this 'south forty'. The last one on the list is that we leave things as Mother Nature intended. No trash on the ground and if you smoke, filter tips are not a self destruct item. Wad them up and put in your pocket or use the ash trays we will provide. We will have garbage cans placed around the area so there should be no excuse to leave the place in worse shape than when we arrived!! NOW FOR THE BEST PART! The site has ample parking for all vehicles. There is lots of room for tents, trailers, campers and motorhomes. Rock Creek, which parallels our site, is actually a small river and is very fishable. Last year, WA6VPA, brought a rubber raft and the kids had a ball doing some 'riffle rafting'. If you want to do some meditating, there is a cable bridge across the river and it is very conducive to deep thinking! Beautiful is the

word! The site we are using is as scenic and comfortable as most of the state parks in Oregon. We are lucky to have such a nice facility. There are, for those of you who have no 'self contained facilities' a HIS and a HER outbuilding. The word odiferous is known to some. Especially if you have made it a habit to use state forest service campsites. The facilities will be heavily limed to make sure that those of you who are not used to roughing it are comfortable. What about the social aspects of field day? We will have a BINGO party on Saturday nite which will be followed by a campfire marshmallow roast. During the day we hope to get some interest going in horseshoes and volleyball. Perhaps a contest between license classes? We have something going for everyone!

OPERATING: The novice station can be operated by novice and techs only! In fact, it must be set up by same. It will sport a tower and beam and dipoles. The two phone stations may be operated by anyone, even non-hams. The CW station pretty much has to be run at 20wpm and up to make contacts.

TALK-IN will be 92-32 and or 147.52. Make sure your handi is charged as the line voltage to the cookhouse is unreliable for charging purposes. PLEASE KEEP AN EYE ON THE LITTLE ONES. The stream is very close by and accidents we don't need.

We had right around 100 at peak time last year and let's hope we outdo that by a bunch. We have the membership to do it and quite surely the enthusiasm. (no--not accidents--people) A note of interest: Out of all the stuff that was donated for use in last years outing we lost only one thing. A short line cord. If you are willing to donate, PLEASE label your donation with some good strong tape or whatever. Especially coax and line cords. As our club committees are more or less running the show, following is a list of names and phone numbers to contact in case you have a donation or question.

TECHNICAL SET-UP: Roger, K7RXV at 642-1419

STATION OPERATION: Marty, KA7CTP at 644-9244

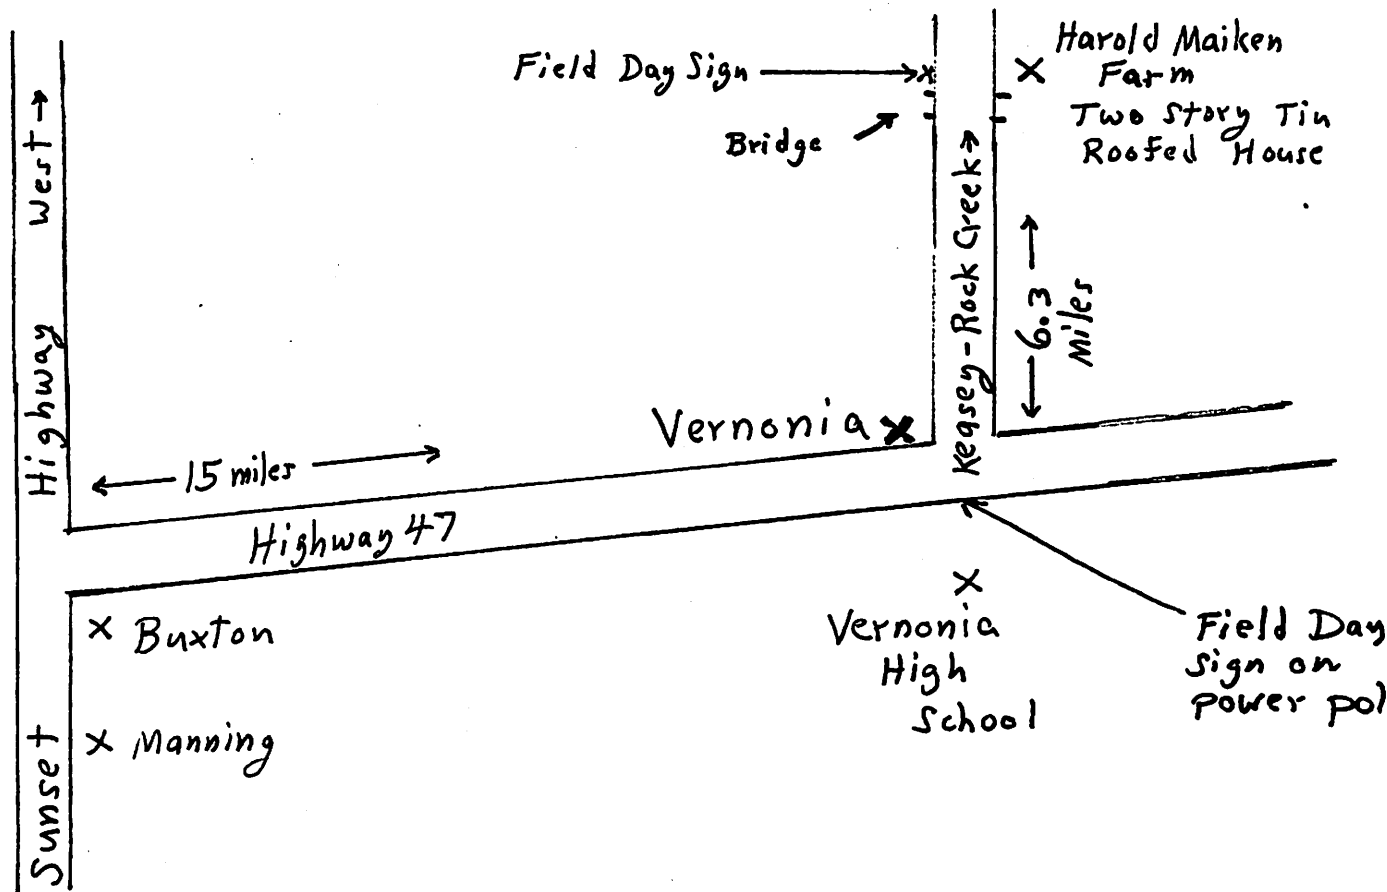

FOOD AND FUN: Mona, WD6AYC at 648-8194

SUPER! Nice work and good luck to you all with your new privileges. Quite sure that your efforts will prove to be worth it. In case you didn't know, our Oregon SCM, Bill Shrader, W7QMU, lists upgrades in his monthly report to the ARRL. If you don't belong to the ARRL, better buy an issue of QST if you want to see your call in print. It will most likely be there!

May your interim-PO be short!!!!!!

10-10 International #2 - CITY OF ROSES CHAPTER:

The last issue was a beginning for 10-10 for OTVARC members. Since the last issue over 2000 hams have acquired their own 10-10 number. We have members in many countries around the world including Russia. We do have 10-10 Chapters in most parts of the world. Funny thing I should bring up Chapters. We have a local 10-10 chapter named the CITY OF ROSES. We meet every Saturday morning at 1700Z on 28.925. (Don't forget DST change). Several OTVARC members are charter members. Any amateur working 10 meters by ground wave may become charter members if they possess a 10-10 number. Feel free to drop in on us without a 10-10 number and we can soon qualify you for your very own 10-10 number. To become a charter member just send \$3.00 to CM Forrest Blood KB7UW 3305 Upper Drive, Lake Oswego, OR. 97034. You will receive three very beautiful certificates to hang on the walls of your radio shack. Who will be the next member from OTVARC to join our ranks?

We are looking for a dedicated YL to join our net on Saturdays. You can join us from the privacy of your radio shack and meet many DX stations checking in with us. We have to propagate 10 meters as well as our local chapter. I challenge any YL to talk with me for more information.

Don't forget to visit our 10-10 booth at the Seaside ARRL Convention this year. Volunteers are welcome for the exhibit.

Next issue more about CW and phone contests throughout the year.

Cheers - See you at the convention.

Doc KA7BSD 10#-30059

PORTLAND RADIO SUPPLY

1% Rebate Registration

To: All Northwest Amateur Radio Organizations

Subject: Portland Radio Supply's 1% Rebate plan for Amateur Radio Clubs and club members.

For some time we have sought a way to make our support of the clubs proportional to the support that the clubs give us through purchases made by the members and to say thanks to the clubs for their support.

On August 18, 1981 we mailed out a letter to all Northwest Amateur Radio Clubs regarding our gift and donation policies.

In order to further streamline our policies and to give additional support to the local clubs, we will be instituting a policy of refunding to the clubs 1% of all purchases made by the members.

Basically the plan is this:

- Each time a purchase is made by the member, he presents his rebate card to the salesman.
- We will keep track of all purchases made and issue a credit memo for 1% of all purchases at the end of each month. This credit may be used for purchases of any product sold by Portland Radio. The club may use this credit for raffle items, for supplies or for any other purpose!

73's

Joe Borsch

Joe Borsch, President
Portland Radio Supply

Your rebate card will be either mailed to you or made available at meetings. The decision of how to best accomplish the task has yet to be made. This a super nice gesture on the part of PRS and it will help us out a great deal with the club finances. If you are a relatively new member, you may be interested to know that Antronics, in Hillsboro, is giving us a similar program. Just mention that you are with OTVARC and they will record your purchase. By the way, your PRS card # will be your OTVARC membership number. NEAT. WE THANK BOTH PORTLAND RADIO SUPPLY AND ANTRONICS FOR THEIR CLUB SUPPORT!!!!

Club Number

'PLAY BALL'

This is a special CHALLENGE to our club committee's. What say we have a club softball game in early September and make it a contest between novice, tech and general VERSUS advanced and extras? As I see it, we could have a club picnic, an entertaining ball game and one heck of a good time. Some suggested rules: Have TWO teams of 9 per team. Inning 1 thru 4 would be team #1 and the fifth inning would be manned by selected members in the stands. Inning 6 thru 9 would be staffed by team

#2. Each shift of teams would have to consist of at least one female club member! If this is confusing, let me explain. For instance, the advanced and extras would have 9 people on team #1. When the fifth inning comes up, the team manager must go into the stands and recruit 9 members to handle the inning. After the fifth inning is over, team #2 comes on the field. The winning team would autograph the game ball and the raffle committee could auction it off at the next meeting. If this sounds a little crazy, who cares! It would be fun. Just about all of our committee's would be involved. A picnic for the SOCIALS, competition for the CONTESTERS, game strategy for the TECHNICALS, advertising and promotion for the PUBLIC RELATIONS, a raffle for the CRAZY QUAD and possible sprains for the EMERGENCY SERVICES. If this all comes about, the team managers could have some fun with arranging summer tryouts. The rules, as suggested, would allow 54 members to take part in the physical confrontations. The rest could cheer or boo, dependent on what class of license is held or what family member is swinging the bat. How about it committee's? Pick a good weekend, make some plans and have at it. We could use an interesting fall activity. Are you up to the challenge???

MORE NATIONAL PUBLICITY FOR HAM GOOD DEEDS NEEDED

Got a note from Pete O'Dell, KB1N, Public Information Officer of the ARRL saying that "over the past couple of years, the League program to get more PR in the general media for the good deeds done by hams has dropped lower and lower in profile. We'd like to bring its recognition factor back up in the amateur community." The League has established a "Newsline" (203-666-1545) that is machine answered 24 hours a day. A caller need only give his name, call, phone number and essential details of the story. You'll be contacted and Pete will issue the appropriate publicity and news releases to the national wire services and networks. He is particularly interested in major local disaster and human interest stories where amateurs are involved.

THE U.S. GOVERNMENT SURE LIKES TO PUBLISH PAPER! I'm sure that it's what the government mostly does although I'm not sure that it is what it does best. Many subscribers have asked where do I get all my information from. Much of it comes from Washington and must be translated and "boiled down". The Federal Register, a daily journal of what the various agencies are up to (we get it every day) already has surpassed 15,000 pages - and the year is only 1/4 gone! We also get a daily FCC data service from a commercial press firm. You have to be a lawyer to understand some of it even though it's written for the public. The Ten Commandments contain 297 words. The Bill of Rights contains 463 words. Lincoln's Gettysburg Address contains 266 words. But a recent federal directive regulating the price of cabbage contains 26,911 words! There has got to be some sort of a message there.

W5YI Report

THANKS-THANKS-THANKS: To Arlene Reed for the ceramic ducks. The club auction put \$25.00 in the bank. Beautiful work Arlene! To W7LJN for not showing up at the club project nite. What a relief! To the April 'Happy Hams' for making their shacks available for pictures. To John Koenig, N7CRP, for helping out our treasurer at the April meeting. It gets pretty busy at times doesn't it John! To Roger, K7RXV, for using his gas \$ in his airplane for the 'Sink The Bismark' event. HATS OFF!!!!

DOC KA7BSD

FINALLY RETIRED THIS MONTH

HELP WANTED

We are in desperate need of someone who is good at making posters and preferably someone who will be at the convention for the whole weekend. We have some that need to be done NOW and most likely will have need for some on-the-spot signs during the convention. If anyone has some expertise with posters, PLEASE call me. Al-WB7SIC at 640-5456.

SPECIAL BANQUET DRAWING

DENTRON has donated a GLA 1000 HF amplifier and we will give it away during the banquet. It will be a must be present to win affair and you must be a licensed ham or have a licensed MATE in tow to win. We cannot give an amp to a non-ham. The prize will be on display in the lobby and tickets will be given out at the door on entering the banquet hall. GOOD LUCK and have an enjoyable dinner!

MEETING PROGRAM

We are switching our schedule around by a month due to programming problems. Our May meeting will be a 'SOCIAL NITE' but we will have a short NASA film for all to see. Should be interesting. NOTE-Our June meeting will feature a program on FIELD DAY and we will also be showing some slides of last years event. Plan on it!! CU on 'SOCIAL NITE'.....

A fifth grade student in Seattle reports the D.C. Gazette described the human body in a unique manner: The human body is composed of three parts-the Brainium, the Borax and the Abdominal cavity.

1. The Brainium contains the brain.
2. The Borax contains the lungs, the liver and other living things.
3. The Abdominal cavity contains the bowels, of which there are five: A, E, I, O and U. by K7SUQ & K7SUR-CCARC

Sorry the newsletter is not quite as newsy as usual. Convention and field day are a priority right now. The 'Happy Hams' will be continued after all the dust settles. Hope to have some photos in the next 'letter' of the field day site so the lucky newcomers will have an idea of what they will miss should they decide to stay home and mow the lawn. Heaven forbid!

CU ALL IN SEASIDE!!!!
